Experience

Senior Software Engineer - Talkiatry, LLC

Apr. 2023 - **Present**

- Technical Lead on the product development team
- Led feature and story development with a focus on optimizing user acquisition and retention, resulting in a 12.4% decrease in customer acquisition costs (CAC)
- Built a reliable, maintainable codebase with adequate test coverage and monitoring
- Communicated benefits and tradeoffs to engineers and non-technical stakeholders
- Mentored teammates to improve their productivity and code quality, resulting in a 15% increase in feature delivery speed and a reduction in bug rates by ~10%
- Collaborated with cross-functional stakeholders to deliver measurable outcomes

Software Engineer - Lockheed Martin Corporation

May 2020 - Apr. 2023

- Designed, developed, tested, and deployed full-stack applications for various enterprise customers
- Delivered high-quality, innovative products to meet customer requirements
- Created complex, distributed simulation systems using advanced software processes
- Designed and built frontend UI for multiple simulation systems, ensuring a solid user experience
- Introduced new design methodologies and worked effectively in teams for efficient software development
